**Emergency Personnel:**

**Suitable Protective Gear:** Wear impervious gloves, shoes and protective clothing.

**Unsuitable Protective Gear:** Not Applicable

**Environmental Precautions:** Prevent any contamination of local soils and water supply. Prevent ground water infiltration or any ground penetration. Avoid the spreading or entering into watercourses by using sand, soil, or other types of barriers. If contamination into water course or sewage system, alert appropriate authorities.

**Containment/Clean-up Methods:**

**Containment & Recovery of Product:** Contain with absorbent material, such as clay, soil, universal binding medium, or any commercially available absorbent. Shovel reclaimed dye and absorbent into a recovery or salvage drums for disposal. For larger spills, transfer to a salvage tank for recovery or safe disposal. Any residues should be treated like a small spill. This is not a RCRA hazardous waste per Title 40 CFR 261. Stop material from contaminating soil, or from entering sewers or bodies of water. For larger spills, transfer to a salvage tank for safe recovery/disposal. Residues are treated as small spills.

**Disposal:** Either incinerate or land fill in accordance with applicable local, state and federal regulations.
